Description

- Networked digital viewing system.
- Windows software adapted to the industry (screws, bar turning...).
- Easy setting system.
- Lighting immune to external lighting contamination (Reflection, shine...).
- Stable system. Not influenced by electromagnetic interference.
- High definition optical inspection.
- Limitless storage capacity.
- Instant reference change.

Features

Length up to 150 mm.

∅ up to 35 mm.

Accuracy ± 10 µc

Options

- Motorised part turning with fixed centre.
- Integration into company's computer system.
